PROFILE

UX/UI Designer with 3+ years of experience designing complex digital products, from user research to final delivery. User-centred approach aligned with business goals, combining interaction design, service design and accessibility (WCAG). Experienced in Agile/Scrum teams, contributing across the sprint cycle from discovery to release. Front-end skills (React, Angular, TypeScript) enable smooth collaboration with development teams, shortening handoff time and improving design implementation fidelity.

PROFESSIONAL EXPERIENCE

UX/UI Designer

2022 — Present

ZeroDD — Lecce, Italy

- End-to-end design of web and mobile interfaces: from user research and flow definition to wireframing, Figma prototyping and developer handoff.
- Conducted accessibility audits on existing products and applied WCAG guidelines, ensuring compliance and inclusivity by design.
- Defined and maintained design systems and component libraries to ensure visual consistency and scalability across products.
- Service design: mapped user journeys and service blueprints to identify pain points and opportunities to improve the user experience.
- Cross-functional collaboration with product managers, developers and stakeholders, facilitating co-design sessions and requirements alignment.
- Worked in Agile teams using Scrum: sprint planning, daily stand-ups, reviews and retrospectives; planned design work ahead of development sprints and managed the design backlog in Jira.

Digital Strategist & Content Designer

2017 — 2021

PagineSì S.p.A — Terni, Italy

- Defined digital communication strategies for a diverse client portfolio, with a data-informed approach focused on the end-user experience.
- Designed information hierarchy and content architecture for digital channels (websites, landing pages, campaigns).
- Analysed performance with analytics tools and produced periodic reports to guide strategic decisions.
- Directly managed high-spending clients through structured stakeholder management.
